BackEnd: Ruby on Rails, NodeJs
Database: MySQL, PostgreSQL
Testing: Cypress, Jest, Rspec
Other Software: Git, GitHub, GitLab, NPM

EXPERIENCE

AUMNI INC. | Software Engineer

August 2020 - Present | Salt Lake City, UT

- Technical lead for building out a new review system for legal documents that allows concurrent reviews that are then compared for data accuracy.
- Accelerated and stabilized data ingestion by improving functionality and responsiveness for form wizards.
- Created a client-facing audit log to provide visualizations and insights into complex data models.

VERISYS CORPORATION | Software Engineer

April 2018 - August 2020 | Salt Lake City, UT

- Designed a componentized, extendible, and easily maintainable form building architecture.
- Improved data fetching by improving SQL queries and adding indexing to a MySQL database.
- Refactored large legacy application into reusable, decoupled architecture. React on the front end and Ruby on Rails for the back end.

DEVPOINT STUDIOS | Developer/Assistant Instructor

October 2017 - April 2018 | Salt Lake City, UT

- Helped to build an interactive, hands on curriculum for incoming boot camp students.
- Programmed and prototyped multiple applications that were written for both web and mobile.
